

# SUNNYBROOK WELDING

*Manufacturing outperforming combine parts since 1979*

**Case IH  
John Deere**

**Claas Lexion  
Massey**

**Gleaner  
New Holland**

## WE ARE YOUR FARM TEAM

As a team, we are always looking for ways to improve. We are not a complacent group that is satisfied by what we have achieved. From senior management to our production team, we genuinely love what we do. Several of our team members have worked in other businesses in the agriculture industry, so we understand the challenges and opportunities facing our customers.

As we look forward into 2024 and beyond, we expect markets to be competitive, but feel our company is well positioned to meet the challenges, thanks to our strong product mix.

Undoubtedly, our strength lies in our ability to come up with innovative designs for threshing and separating. From concept to field trial, we are committed to helping our customers. As a team, we are always looking for incremental improvements that will allow our customers to yield the most profitable crops. The long-time industry veteran and President of Production, Piet Boogaard, also credits his team, for Sunnybrook Welding's achievements.

Sunnybrook Team April 2023

## CASE IH
